Dear Mr. Connally:

On behalf of the IBM Corporation and specifically the management of the State of California Project, I wish to express our appreciation to Jon Seidel for his contribution to our project. He deserves special commendation for the job he did to complete the ITT Processor Functional Testing and in the packaging the DMV Real-Time System.

Jon demonstrated a professionalism that was crucial in completing our testing of the system. Jon was fully productive within two days after joining the project, and by the end of the following week, he had assumed nearly full technical responsibility for a major subsystem. His enthusiasm encouraged others to work full out to successfully complete a long and difficult project.

Jon, by his contribution, is a credit to himself and to your organization. Again we express our appreciation.

Sincerely yours,

W. C. Schrum  
Project Manager
