Mountain View, CA 94041

Dear Mr. McDonald:

Jon Seidel

For the past two months, Jon Seidel was a member of a California State Lottery system review and evaluation team. His services during this period were invaluable. He brought to the team a level of technical knowledge and background that served to complement the client view.

As you know, we were on a fast-track process to assist resolution of a potentially lengthy and expensive litigation process. Jon's prior work on the litigation issues and his technical knowledge provided expertise that we could not easily obtain elsewhere. His ability to help the team focus on specific issues was instrumental in maintaining a tight schedule.

He was extremely well organized in his approach and the fact that he captured information on his personal computer made it very easy to track issues. This provided a concise audit trail available for follow-up activity.

In summary, I would be pleased to work with Jon in the future and would be happy to recommend him for future assignments.

Sincerely,

Robert B. Silva, Director
Information Management and Services Division
