LETTER OF RECOMMENDATION - JON E. SEIDEL

TO WHOM IT MAY CONCERN:

As Director of Instructional & Research Support Services (IRSS) I would like to personally endorse Jon Seidel.

Jon was interviewed and subsequently hired for his professional computer consulting services in 1981. Jon's initial challenge was to computerize internal job tracking, purchasing and billing systems for IRSS' technical and administrative units. Jon created a complex business management system that remains the envy of many other UCSF departments. Since then, Jon has continued to expand and modify IRSS' business procedures as dictated by policy and technology changes. He has also provided expert advice for personnel and efficient time management. In the past fourteen years Jon has demonstrated his ability to listen and understand his clients' needs using his strong interpersonal and problem-solving skills.

Please contact me at the above numbers if I can provide more information regarding Jon Seidel.

Sincerely,

A handwritten signature in cursive script that reads "Freeman Bradley".

Freeman Bradley, Director
