Dear Jon:

I want to thank you for the senior level guidance you offered our Information Systems' Department over the past several months. As you well know, Concentric has been in the process of investing substantially in improving its IS capabilities and your contributions in helping us scope the effort and provide needed guidance to our personnel has been most appreciated.

We look forward to a very busy and challenging 1999. Your efforts in helping us position the group for success is much appreciated.

I will be glad to provide any references you require in your future endeavors.

Thank you.

Sincerely,

A handwritten signature in black ink that reads "Mike".
